A most frightful accident happened on the Fourth street side track last Tuesday morning. A freight train, which was backing at the time, ran over a little boy named Loyal Curtis, a son of a family who had been in the city for some time. The boy was killed, and his head was found some distance from his body and also one arm. The little boy was the son of a widow who lives close to the track. The little fellow was standing on the track at the time of the accident, but was too much bewildered to escape the approaching train. He is reported to have been a bright, handsome little fellow. The funeral occurred Tuesday afternoon, Rev. A. J. Hartsock preaching the sermon.

The Salina Journal says:

"We understand that Mr. C. E. Faulkner, of this place, is to be appointed by Governor Anthony a trustee of the State Insane Asylum."

We presume that this means that Mr. Faulkner is to be appointed one of the trustees of the State Board of Charities, which includes the insane asylums, the deaf and dumb and the blind asylums. All of these institutions are under the control of one board. The time of Mr. Faulkner and his wife to the people of the State, and if the above statement be true Mr. Faulkner is probably to take the place of one of the above named gentlemen. Mr. Faulkner is favorably known to the people of the State, and we judge his appointment would be satisfactory. It is made—Topeka Commonwealth.

Mr. Faulkner has since been appointed a member of the State Board of Charities.

The temperance movement is still being worked up. Last Saturday a street meeting was held at the Post Office corner. Addresses were made by Revs. Green, Rhoads and Martindale. A large throng was collected thereabout. On Monday night a meeting was held at Brookville, under the auspices of the Salina temperance workers. Addresses were made there by Messrs. Snow, Green and Spivey. The Salina brass band and a band of Italy and gentlemen choristers furnished the music. Further particulars of the meeting are given in the Brookville Items. 108 signed the pledge. A second meeting will held Tuesday evening, addressed by Revs. Lockwood and Wm. Bishop. Other meetings have been held at school houses in the county, addressed principally by Messrs. Snow and Spivey.

In view of the grand wheat prospects and the lateness of the season we believe it is safe for farmers to calculate no more on high prices for their last year's fall wheat. The European war is at end; the Black Sea ports are full of grain; there was never a better prospect for a vast yield of fall wheat; there is nothing, and no prospect of anything, to make an unusual stir in the market. In the minds of those who make prices at the great centers, there is a sense of peace that passeth all understanding—an inactivity unprecedented. Of course with every little breeze from the markets of the great cities prices may vary, up and down, a cent or two; but what we mean and believe to be true is that there will be no marked change in the wheat market prices until another season.

A week ago last Saturday Prof. Fitzpatrick received notice from State Superintendent Lemmon that the schools of Kansas would be represented at the Paris Exposition by specimens of work of scholars. On Monday morning the Professor gave notice to the scholars, of four departments, and on Thursday evening he had bound and ready to send away specimens of written exercises in arithmetic, geography and drawing; in addition, from the higher department, Latin exercises. In the collection were some exercises in map drawing. The above specimens of drawing were very finely executed. All were written and drawn during school hours, and while the scholars were keeping up their regular studies in the school.

A correspondent for the Commonwealth, calling himself "Salina," writes of the Murphy movement in the following manner:

Out of this city of two thousand inhabitants, nearly seventeen hundred have signed the pledge, up to this date. Most of them have been hard drinkers, and a large per cent. moderate
